

# **From Tokyo, the Capital of Japan: The scenario to break through the impasse and revitalize Japan**

Prof. Tamotsu Takase  
Counselor to the Governor of Tokyo

# Trend of Japan's Nominal GDP

## The Eight Goals of Tokyo Vision 2020

**1. Achieve a sophisticated disaster-resistant city and demonstrate Tokyo's safety to the world**

**2. Create a low-carbon society with a highly efficient, independent and distributed energy system**

**3. Restore Tokyo to a beautiful city surrounded by water and greenery**

**4. Connect land, air, and sea to raise Tokyo's international competitiveness**

**5. Put Tokyo on a new track to growth by raising industrial power and the allure of the city**

**6. Build and show the world an urban model for a society with a low birthrate and aging population**

**7. Raise globally competent individuals by creating a society where anyone can strive for high goals**

**8. Create a society where everyone can enjoy sports and provide children with dreams**

# The 12 Key Projects Supporting Tokyo Vision 2020

**Project 1: 100% Completion of Seismic Retrofitting**

**Build a city that will not collapse in the event of a major earthquake**

**Project 2: Increasing Fire-Resistance of Districts with Close-Set Wooden Houses**

**Turn districts at high risk of fire into communities that do not burn or spread fire**

**Project 3: Mutual Assistance for Disaster Mitigation**

**Protect the lives of Tokyo's residents through unique mutual assistance schemes**

**Project 4: 3-Million kW Made-in-Tokyo Power Generation**

**Double Tokyo's power generating capacity by expanding independent and distributed power generation**

**Project 5: Creating a Smart City**

**Houses, buildings, and communities control their own energy**

**Project 6: Building a Network of Water and Greenery**

**Create a Tokyo rich with corridors of water and greenery**

**Project 7: Bolstering the Land, Sea, and Air Transport Network**

**Accelerate the flow of people and goods by completing the three loop roads**

**Project 8: Asian Headquarters in Tokyo**

**Attract foreign companies through integration of Comprehensive Special Zones and Urban Renaissance**

**Project 9: Bolstering Tokyo's Child Daycare System**

**Boost capacity to 70,000 children and resolve the waiting list by using daycare centers in stations, etc.**

**Project 10: Active Participation in Society by Senior Citizens**

**Tokyo's senior job center and community networks support safe and fulfilling senior life**

**Project 11: Let Your Child Experience the World**

**Curb the introverted tendencies of young people by supporting study overseas by 10,000 people**

**Project 12: Build Four Big Sports Clusters**

**Centering on sports clusters, build a society where anyone can enjoy sports**
